MUHAMMED ANSHAD M

Cloud & IT Support Intern

✉ muhammedanshad2005@gmail.com 📞 +91 8589810735 📍 India

Profile

Cloud & IT Support Intern with practical experience in cloud operations and IT support across AWS and Microsoft Azure environments. Experienced in deploying and managing cloud resources, hosting websites, and supporting Linux and Windows server systems. Skilled in virtualization, networking fundamentals, and enterprise platforms such as Microsoft 365 and Google Workspace. Eager to continuously develop technical expertise in Cloud Support and IT Operations.

Professional Experience

Cloud & IT Support Intern   *Nov 2025 – Present*

Febno Technologies, Calicut, India

- Assisted in provisioning and managing AWS EC2 instances for development and testing, including configuration, monitoring, and troubleshooting.
- Deployed static websites using Amazon S3 by configuring buckets, permissions, and access policies.
- Hosted and maintained websites on Linux and Windows servers, including cPanel-based hosting and basic database connectivity.
- Configured DNS records and implemented SSL certificates, improving website security and reliability.
- Supported administration of Microsoft 365 and Google Workspace, including user accounts, licenses, and security settings.
- Performed basic Active Directory administration on domain controllers, including user and group management.
